9. COURSE COMPETENCIES

Australia has a system of national standardisation of training for many industry areas. This system is implemented through the use of training packages (groups of courses) and individual units of competency within a course. Students are able to get automatic recognition across all registered government and private training organisations for relevant studies undertaken at any one of them.

This course is an accredited course which is different from a national training package. Accredited courses are approved by and registered with the Australian government. This course is common

to many Christian Colleges in Australia. As such relevant units would, in most cases, receive automatic recognition. The 6 core units of competency fall into this category. In addition, any individual units of competency included in the course from other training package courses will receive national recognition.

This course requires a total of 9 Units of Competency to be successfully completed: 6 Core Units plus 3 additional Units.
