### 9. COURSE COMPETENCIES

Australia has a system of national standardisation of training for many industry areas. This system is implemented using training packages (groups of courses) and individual units of competency within a course. Students can get automatic recognition across all registered government and private training organisations for relevant studies undertaken at any one of them.

This course is an accredited course which is different from a national training package. Accredited courses are approved by and registered with the Australian government. This course is common to many Christian Colleges in Australia. As such relevant units would, in most cases, receive automatic recognition. In addition, any individual units of competency included in the course from other training package courses will receive national recognition.

This course requires a total of 10 Units of Competency to be successfully completed: 2 Core Units plus 8 Elective Units.
